RHC CELEBRATES BLACK HISTORY MONTH

On February 24th, Runnymede Healthcare Centre celebrated Black History Month with a special event commemorating the achievements and culture of black Canadians. Connie Dejak, President and CEO, provided opening remarks at the 8th annual celebration which showcased the heritage and culture of Trinidad and Tobago. Staff, volunteers, patients and patient families came together and celebrated with traditional food from the Caribbean and other countries, a colourful parade of carnival costumes, and the fantastic and energetic Steelpan group Caribbean on Steel. A moment of silence was also held in memory of the late Dean Cameron, founder of the black history celebrations at the centre.
